

IN THE CLAIMS

Please amend the claims as follows:

1 2. (amended) Apparatus as claimed in claim 1, characterized in that the single interface
(13) is an I²C interface.

1 3. (amended) Apparatus as claimed in either of claims 1 or 2, characterized in that it
2 includes a rating input unit (9) of auditory-stimulus response signals, the rating input unit being
3 connectable to the single interface (13).

1 4. (amended) Apparatus as claimed in claim 1, characterized in that the single interface is
2 a branched unit comprising at least one first connector to the fitting calculator, at least one second
3 connector to a rating input unit and at least one third connector to the hearing aid.

1 5. (amended) Apparatus as claimed in claim 1, characterized in that the single interface
2 between the hearing aid and/or an input unit and fitting calculator (1) is at least partly wireless.
